The federal government is...

- picking energy winners and losers
- is instilling fear (see for example in Dimock)
- is hostile towards Coal in general and
- is questionably objecting to coal permits specifically

The Obama Administration does not have an "all of the above" energy strategy but more of a "only the above" strategy (solar, wind, etc)

From this morning's House Oversight hearing

## **Rhetoric vs. Reality: Does President Obama Really Support an "All-of-the-Above" Energy Strategy?**
